## Women Swimmers After World Championships.

Philadelphia.

Josephine Bartlett

Mrs. Lillian Howard

Here are three daring women water experts who will be competitors for the world championships at the Panama-Pacific Exposition if inducements to get them to enter coming contests there are made. They now have world wide reputations and they are now above competing with women alone.

Miss Bartlett won a cup for fancy again proved herself able to endure as much as the men who compete with her. Miss Debus of Philadelphia, has swum the route from Chester to Coney Island, more than thirteen miles against a field of men. She is a wonderful long distance swimmer, who has time and last year.

# SOUTH CAROLINIAN DIES IN COLORADO

Joseph A. Holmes, Director of Federal Bureau of Mines-Native of Laurens County.

Denver, July 13.—Joseph Austin Holmes, director of the federal bur can of mines at Washington, and widely known as a geologist, diel here this morning of tuberculosis. Mr. Holmes was a native of South farolina and 55 years old. A widow

and four children survive him.

Mr. Holmes is accredited with making "safety first" a national move-ment. He took for it a slogan of the bureau's work and it spread to all branches of industrial activity. Mr. Holmes was regarded as the father of the bureau of mines, which by a campaign of education and experiment largely reduced the death among the miners. Mr. Holmes always insisted upon going where his trained rescu-ers went, taking upon himself the duties of more robust men. This is believed scriously affected his health.

Sketch of His Life. Joseph Austin Holmes, was born in Laurens county, November 23 1859. He was the son of Z. L. and Catherne (Nichols) Holmes. He lived in Laurens for the first part of his life, being educated at the Laurens Academy and Holmes school in that town. After finishing these schools, however,, he went to Cornell and gradeated there in 1881.

On October 20, 1887 he married Miss Jeanie I. Sprunt, in Wilmington, N. C., who survives him. He continued his residence in North Carolina for several years, being professor of geo-logy and natural history in the Uniwrsity of North Carolina, and then state geologist until 1904. In 1904 he was placed in charge of the United State testing laboratories in St. Louis for testing fuel and building material. He figured largely in the geological displays of the United States at the world's exposition. Since that time he has received many promotions and at the time of his death was director of the federal bureau of mines Washington, which position he had

hel dfor several years. He was a brother of N. J. Holmes, the well known evangelist.

Zine Miners' Strike Off. Joplin, Mo., July 13.—A strike of early 5,000 lead and zinc miners which began here two weeks ago ended today when every mine in the dis-trict resumed operations. There was no settlement. The men went back to the mines and asked for their places at the old wage scale. The miners have not asked recognition for their newly formed union.

To Regulate Food Prices. Rome, July 13.—A conference of the mayors of Milan, Turin, Geona, Florence, Palermo and Naples ras been summoned to meet in Rome to discuss means for fixing maximum prices on foodstuffs throughout Itally, and after precautionary measures, such as the prohibition of the slaughter of young calves.

# YOUR BACK HURTS

Should Drink Lots of Water and Eat Less Meat, Says Noted Authority on Kidney Disorders

Recommends a Spoonful of Jad Salts In Glass of Water Before Breakfast to Stimulate Kidneys and Eliminate the Uric Acid

Uric acid in meat excites the kidneys, they become everworked, get sluggish, ache, and feel like lumps of lead. The urine becomes cloudy, the bladder is irritated, and you may be obliged to seek relief two or three times during the night. When the kidneys clog you must help them flush when the kidneys clog you must help them flush off the body's urinous waste or you'll be a real sick person shortly. At first you feel a dull misar; in the kidney region, you suffer from backache, sick headache, dizziness, stomach gets sour, tongue coated and you feel rheumatic twinges when the weather is bad.

Bat less meat; drink lots of water; also get from any pharmacist four ounces of Jad Saits! breakfast for a few days and your kidneys will then act fine. This famous salts is made from the acid of grapes and lemon juice, combined with lithia, and has been used for generations to clean clogged kidneys and stimulate them to normal activity, also to neutralize the acids in urine, so it no longer is a source of irritation, thus ending bladder weakness.

thus ending bladder weakness.

Jad Salts is inexpensive, cannot injure, makes a delightful effervescent lithia-water drink which everyone should take now and then to keep the kidneys clean and active. Druggists here say they sell lots of Jad Salts to folks who believe in overcoming kidney trouble while it is only trouble.

**PUT CREAM IN NOSE** AND STOP CATARRH

Tells How To Open Clogged Nos-trils and End Head-Colds.

You feel fine in a few moments. Your cold in head or catarrh will be gone. Your clogged nostrils will open. The air passages of your head will clear and you can breathe freely. No more duliness, headache; no hawking snuffing, muscous discharges or dryness; no struggling for breath

at night.
Tell your druggist you want a small bottle of Ely's Cream Balm. Apply a little of this fragrant, antiseptic cream in your nostrils, let it penetrate through every air passage of the head; soothe and heal the swollen, inflamed mucous membrane, and relief comes instantly.

It is just what every cold and catarrh sufferer needs. Den't stay stuffed-up and miserable.

Andrew. He was a long, awkward chap, grown up like a weed on a terrace, and sandy 'r and an infinite variety of freching conspired to make him home! But he as a worker. From an hour before day to the gathering of the night, he hit the pace. He chopped wood, milked the consenuled fedder. He followed the cows, pulled fodder. He followed a shave-tall down many a long, long furrow, and fought crabgrass through many a blistering summer. He knew, as you know, the delight of walking through the cool grass around the house after coming in soaked and salty from a hard day behind the

as hard as nails, and a diet of fatback, corn bread and pot-licker kept him fit as an athlete.

He went to school over in Well-He went to school over in Wellford; finisred there, and went away to college. He wanted to "be somebody." After finishing the college course, he got a job there as instructor. "Professor," they called him.

He wanted to be a lawyer. What he wants, he gets. That is his guiding principle—go after what you want and never give up. A lawyer he became.

I don't know whether he made money as a lawyer. Probably not. At any rate, he began to hun-ger for the feel of soft dirt, and

ger for the feel of soft dirt, and went back to the farm.

He is farming now, up near Greer—arming and raising cattle. Folks up there say he is a great success. They look to him as a sort of model. People all over the state know him as a breeder of fine cattle. And the people who knew him best—his farmer neighbors—says he is just as plain as an old thee sort as severe. as plain as an old shoe, and as square and honest as a man can be. He is old-fshioned and simple and whole-some; but for all the rusty scabbard that encases him, his mind is as keen as a battle sabre. He isn't a man given to theories or 'oligies. He is educated, but he is practical—full or common, hard sense.

Morgan and Nicholls and Johnson and Gantt, who are running against

him for cougress, are going to have a fight on their hands, for Miller is the sort of man who appeals to

townfolk and countryfolk actice.

I don't want to appear to be "boosting" Miller. I'm just telling you who he is and what he is. So far as I am personally concerned, I don't like him. He told me one day that he thought a man ought to be out or bod, winter and summer, at 4:30 a. m.

And that's too darned soon -

A stalk of mint boiled with new po-tatoes improves the flavor, as also does a lump of sugar pst in with
